**QUARTERLY REPORT FOR 700 MHz PUBLIC SAFETY BROADBAND
DEPLOYMENT OF THE CITY OF MESA ON BEHALF OF THE TRWC**

As required by FCC Waiver Order 10-79, the City of Mesa, as the Administrative Manager of the TOPAZ Regional Wireless Cooperative (TRWC), hereby files the Third Quarterly Status Report due on April 19, 2011.

I. Planning

Expected timing for development and issuance of any RFI/RFP

- A. The City of Mesa issued a Request for Proposal (RFP) on November 2, 2010 for a 700MHz LTE Broadband Wide-Area Mobile Data Network. The vendor proposals were due to be submitted to the City on December 30, 2010. Proposals have been received from several vendors.
- B. The City has reviewed the received RFPs and is in the process of making a decision on moving forward with a contract award pending the outcome of the proposed rulemaking and Declaratory Ruling on eligible users.
- C. The City of Mesa has been actively participating in conference calls with the FCC, PSST and other waiver recipients. This also includes coordination discussions with neighboring waiver applicants & recipients and the State of Arizona Public Safety Interoperable Communications Office (PSIC).

II. Funding

Status of efforts to obtain funding for planning and/or deployment, including budgeting, assessments, grants or other means

- A. Public Safety bond funding is available for the replacement of the obsolete narrowband UHF data network.

III. Deployment

Status of equipment development and purchase, including number of devices and users

- A. No equipment has been purchased. Deployment schedule will be determined after the RFP responses have been evaluated and contract has been awarded to the successful vendor.

Site development, including use of existing towers

- A. Final system design will be developed in the RFP process. Existing municipality owned tower sites, will be utilized as much as possible. Existing microwave infrastructure and fiber optic circuits will provide sufficient bandwidth for the backhaul. Requirements for any new tower sites will depend on the final system design established in the RFP process.

Deployments and upgrades (commencement and completion), including site information and location.

- A. Final design and deployment timeline will be developed in the RFP process.
- B. City of Mesa will ensure that all public safety agencies operating within the geographic areas covered by Mesa's network will have access to the network.

Applications in development or in use

- A. There are no applications in development or in use at this time. City of Mesa expects to deploy a network that supports the applications as described in paragraph 46 of the waiver order.
